

## CASE STUDY<sup>5982D</sup> LPG PLANT, BILLINGHAM

Thompsons of Prudhoe were appointed as Principal Contractor to carry out the asbestos removal, demolition, dismantling and site clearance of all process plant, structures and equipment within the former LPG Plant at the GrowHow UK Ltd Billingham site.

Works also comprised the demolition of the Switch House, Substation, Operators Cabin and transformers located off Road 15.

Thompsons used a combination of cold cut hand works, mechanical means and lifting operations to progressively dismantle the structures.
